

Notes to contributors

Transactions of The Royal Norwegian Society of Sciences and Letters is a multidisciplinary journal, covering subjects from sciences in broad sense. Publication is irregular, and the type of publication varies, from single articles to larger monographies and anthologies. Acceptance of large manuscripts and those containing color prints may be conditional on financial contribution from the author. *Transactions* is at the scientific Level 1 in the NSD register of authorised publishing channels in Norway, and is indexed in national and international databases for scientific publications.

Peer review and anonymity: All submissions will be subject to peer review. Manuscripts must therefore be anonymized by the author(s), and information about the author(s) must be given on a title page. In the paper, please omit name(s) of author(s), except when citing previous work. Self cites should always be done in such a way that reviewers cannot identify author(s).

Title page: The title page must contain the title and the author(s) name, institution, mailing address, phone number, and email address, as well as any acknowledgements. Co-authors must be indicated. This page must also contain a statement that the manuscript has not been published or submitted for publication elsewhere, and co-authors must give their consent to publication.

Manuscript standard: Manuscripts are preferably written in a Scandinavian language or English. All manuscripts are required to have an English summary and title. Submitted manuscripts must contain the following:

- Title
- Abstract, approx. 200 words in the paper's language
- The manuscript
- Notes as footnotes. Notes should be kept to a minimum and used only for comment
- Reference list in alphabetical order
- Numbered figures and table *in separate files*

Tables, figures and illustrations: All figures and tables in the manuscript must be allowed published. If someone other than the author(s) has made a figure or table, the name of the source should be stated in the text. The author(s) is responsible for obtaining the permission to use earlier published illustrations. Each table/figure should be numbered, and each placing in the text should be marked.

Reference system: *Transactions* uses APA style for citation and referencing. Within the text, identify sources using the author-date system, e.g. Smith & Jones (2002, pp. 32–45) or (Smith & Jones, 2002, pp. 32–45). If a cited work has more than two authors, use 'et al.'. In the reference list, however, the names of all authors should be given. When citing more than one reference at a time, list them in alphabetical order, divided by semicolon. Citations in the text must agree exactly with the list of references. References must include DOI for sources that have one. Place the DOI-URL at the end of the reference. URL is used for electronic sources without DOI. Include the accessed date.

The list of references is written in alphabetical order. Examples:
